

# Dear Friend

Dedicated to the memory  
of Lisa Shore, z'l

Life is so short  
Don't sit around and let it pass you by  
Because it does so quickly  
And you  
My dear friend  
Were taken before your time  
These tears that fall are for you  
Although you're so far away  
I feel like you are near  
Watching over me

No one else can compare to you  
The laughter that we shared  
Can never be replaced  
The difference that you made to every  
person around you  
Will never be forgotten

Your face I think of every day  
The face I'll never see again  
And when I walk down the street  
I always mistake  
Others for you  
Although I know that you are gone

And these tears that fall down my face are only for you  
Tears for the laughter I'll never hear again  
Tears for the face I'll only see in a picture  
The ache in my heart hurts so bad

And last night  
I woke up wanting to call you  
When I remembered you are gone  
And these tears streaming down my face are only for you  
I miss you so bad

Time flies  
Not many people realize how precious it is  
Until someone you love is gone  
Don't sit around and let it pass you by  
Because 20 years from now you'll be wondering  
Where it all went

We all have dreams  
But few make them come true  
Because most of us sit around  
Waiting for them to come true

And your face I will never see again  
Your perfect sense of humour  
The time we spent together  
I'll never forget.
